

At APEX FENNER, our vision is to be respected as the safest, most professional and successful conveyor belt solution provider in the world.

We are looking for experienced **Belt Splicers** and **Leading Hands** to work in our fast growing **Townsville Branch**. You will be skilled in belt splicing either with steel cord, fabric or mechanical knowledge. Duties involve splicing, belt installation, pulley refurbishment and lagging.

A driver's licence is essential. Trade background or other skills certifications an advantage.

We offer:

- Competitive salaries, plenty of overtime and varied and interesting work.
- Excellent training which starts at our Induction Program and continues with yearly appraisals where we discuss training & development options. We encourage staff to learn new skills and take on new job responsibilities.
- Opportunity to complete a recognised industry qualification in Certificate 3 Rubber.
- Internal advancement - we regularly advertise internal vacancies at our 20 national branches to our staff.
- Long term career prospects for people who are willing to learn and want to develop their career with opportunities nationally in sales, supervision and safety roles.

If you have experience in splicing or have mechanical/trade skills and you are looking for career development, please contact us to talk about opportunities by sending an application to jobs@apexfenner.com.au
